

Daytona Beach Bike Week 2006  
**HEPATITIS C TESTING EVENT**  
*Preliminary Report*

HEP-C ALERT, INC.

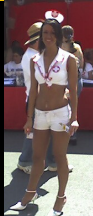

MARCH 14, 2006

Volunteers, Sponsors, and Friends  
*a drum roll please.....*

***937** people tested for Hepatitis C!*

This groundbreaking event, surely qualifies as the largest public hepatitis C screening ever held. It would have never have happened without the cooperation of National Hepatitis C Advocacy Council members from across the U.S. Congratulations to us — we demonstrated that we are organized, capable, and united. Our sincerest appreciation for everyone's hard work and dedication.

Additional pictures and details to follow once the test results are in.

Meet Danielle — our “Nurse Hottie.” Danielle is a student at Daytona Beach Community College. Her mother is a nurse, and quite proud that Danielle was able to convince hundreds of at-risk men and women to get tested for HCV.
